We understand there may come a time when it becomes difficult to live independently in one's own home. Some folks find they require more care than is provided in an assisted living situation, but not enough care that would require a skilled nursing facility. This is where Sunshine Adult Family Homes is the perfect solution.

Each home accommodates only 6 residents. This small home feel allows the resident to feel as though they are a part of our Sunshine family.

Sunshine Adult Family Homes are focused on providing the highest quality care and services, and we make sure our residents feel safe and comfortable in their living environment. For us, providing dignity and respect is of the utmost importance.

Our residents' daily living and care needs are handled personally by our staff. We provide specialty and medical services from our sister agency, Sunshine Home Health. For residents' prescription needs our contracted pharmacy provides delivery services at no additional cost, so no need for family to pick up medications.

We provide daily activities tailored either for the individual or for group socializing. This ensures our residents have an active home life which is as fun and as full as they want it to be.
